Max Mega Menu

Core version: 2.9.2 - Pro version: 2.2

Menu Locations **Menu Themes** General Settings Tools License

Select theme to edit Default ⋮

Editing theme: Default

This menu theme is not currently active as it has not been applied to any menu locations. You may wish to check you are editing the correct menu theme - you can choose a different theme to edit using the 'Select theme to edit' selector above. Alternatively, to apply this theme to a menu go to *Appearance > Menus > Max Mega Menu Settings* and select this theme from the 'Theme' dropdown.

General Settings **Menu Bar** Mega Menu Flyout Menu Mobile Menu Badges Custom Styling

Menu Height

Define the height of each top level menu item link. This value plus the Menu Padding (top and bottom) settings define the overall height of the menu bar.

80px

Menu Height (Sticky)

The height of the menu when sticky.

ENABLED HEIGHT TRANSITION

Menu Background

The background color for the main menu bar. Set each value to transparent for a 'button' style menu.

FROM → TO

Menu Padding

Padding for the main menu bar.

TOP RIGHT BOTTOM LEFT

Menu Border Radius

Set a border radius on the main menu bar.

TOP LEFT TOP RIGHT BOTTOM RIGHT BOTTOM LEFT

Top Level Menu Items

Menu Items Align

Align *all* menu items to the left (default), centrally or to the right.

Right

i This option will apply to all menu items. To align an individual menu item to the right, edit the menu item itself and set 'Menu Item Align' to 'Right'.

Item Font

The font to use for each top level menu item.

COLOR SIZE FAMILY TRANSFORM

WEIGHT DECORATION ALIGN

Item Font (Hover)

Set the font to use for each top level menu item (on hover).

COLOR	WEIGHT	DECORATION
<input type="text" value="#ffffff"/>	<input type="text" value="Normal (400)"/>	<input type="text" value="None"/>

Item Background

The background color for each top level menu item. Tip: Set these values to transparent if you've already set a background color on the menu bar.

FROM	TO
<input type="text" value="transparent"/>	<input type="text" value="transparent"/>

Item Background (Hover)

The background color for a top level menu item (on hover).

FROM	TO
<input type="text" value="rgb(3, 77, 139)"/>	<input type="text" value="rgb(3, 77, 139)"/>

Item Spacing

Define the size of the gap between each top level menu item.

Item Padding

Set the padding for each top level menu item.

TOP	RIGHT	BOTTOM	LEFT
<input type="text" value="0px"/>	<input type="text" value="20px"/>	<input type="text" value="0px"/>	<input type="text" value="20px"/>

i Generally we advise against using the Top and Bottom options here. Use the 'Menu Height' setting to determine the height of your top level menu items.

Item Border

Set the border to display on each top level menu item.

COLOR	COLOR (HOVER)	TOP	RIGHT	BOTTOM	LEFT
<input type="text" value="#fff"/>	<input type="text" value="#fff"/>	<input type="text" value="0px"/>	<input type="text" value="0px"/>	<input type="text" value="0px"/>	<input type="text" value="0px"/>

Item Border Radius

Set rounded corners for each top level menu item.

TOP LEFT	TOP RIGHT	BOTTOM RIGHT	BOTTOM LEFT
<input type="text" value="0px"/>	<input type="text" value="0px"/>	<input type="text" value="0px"/>	<input type="text" value="0px"/>

Item Divider

Show a small divider bar between each menu item.

ENABLED	COLOR	GLOW OPACITY
<input type="checkbox"/>	<input type="text" value="rgba(255, 255, 255, 0.1)"/>	<input type="text" value="0.1"/>

Highlight Current Item

Apply the 'hover' styling to current menu items. Applies to top level menu items only.

ENABLED
